

We have used Maloney's Remodeling for various home improvement projects at our own home, at a rental unit, and for a relative's home. The tasks that Tory has performed include the installation of four exterior doors, a new window in our home, a complete reconstruction of a room, a partial remodeling of a kitchen, and the replacement of windows on two porches. This work was performed over a two year period. We are very happy to say that in each and every job that was done for us these facts remained constant:

- ✓ The estimate we received was fair and accurate and did not vary unless an unexpected construction issue arose (for example, a hidden electrical wire that needed to be moved);
- ✓ Tory always showed up on the job the day and time he promised and the job was completed either early or right on schedule;
- ✓ Tory was always respectful of us and our family needs and every day cleaned up all construction debris leaving our residences in excellent condition;
- ✓ Tory was very creative in coming up with innovative solutions for our construction needs;
- ✓ Tory was always willing to tailor the job to our budget.

It is without hesitation that we highly recommend Maloney's Remodeling for your renovation needs. We know that we'll be calling upon this fine business for our future projects. You will not be disappointed in the cost, the workmanship, and the professionalism of Tory.
